CIS Infra Azure AI GTM portfolio v4.0: PDCA summary (11 Oct 2026)

Prepared by Upendra Kumar. Six decks (00 to 05, 274 slides), a 12-slide leadership pack, six customer pitches and a references pack. Five cycles were run. Cycles 2 to 4 were checked by a separate reviewer that had not built the decks.

Cycles and findings

Cycle	What happened	Critical	High	Medium	Low	Result
1 Plan and Do	Applied 56 section 4 recommendations					52 closed; MS1 and DE2 partly closed; DE5 deferred
2 Check (independent)	Fresh audit by a separate reviewer	2	7	17	4	All 30 addressed
3 Check (independent)	Re-audit	0	0	2 new	2 new	20 fixed, 10 partly fixed
4 Act and Check	Fixes, then independent verification	0	0	1 new	2 new	13 of 14 fixed
5 Act	Final targeted fixes	0	0	0	0	Last 3 items and font issue closed; not re-scored

Score movement (independent reviewer, average of rubric dimensions, 1 to 5)

Deck	Cycle 2	Cycle 3	Cycle 4 final	Dimensions still at 3 after cycle 4
00 Master	3.5	3.9	4.1	Visual and editorial (16 pt table, since raised to 18 pt)
01 Landing Zone	3.6	3.7	3.7	Commercial, decision readiness, Microsoft
02 Agent Governance	3.4	3.8	4.0	None
03 AI Gateway	3.8	3.9	3.9	Decision readiness
04 FinOps	3.5	3.7	4.0	None
05 Managed Ops	3.5	3.6	3.9	Microsoft alignment
Leadership pack	3.2	3.7	3.7	Commercial, delivery and presales, visual
Customer pitches (8 dimensions)	2.9	3.9	3.9	Delivery and presales

Exit criteria status

Met: no open critical or high findings; zero em or en dashes; no placeholders; talk track on every slide; OOXML validation passed; author Upendra Kumar on every file. Not fully met: some rubric dimensions remain at 3 because they need real inputs (Finance rates and margin, alliance review, demo environment, SOW template, bench numbers). Each is deferred with an owner in the audit closure report.

Remaining risks

- Rates, margin and revenue recognition are Finance inputs; fee bands use an illustrative $1,000 per role day.
- The kill switch is unproven until the internal PoC passes; containment is not in committed scope before then.
- Third-party sources remain for the E7 price, the EU AI Act Omnibus dates, Saudi PDPL and US bank model risk guidance.
- Not opened in desktop PowerPoint; Arial substitutes for Gellix.
- Cycle 5 changes were not re-scored by the reviewer.
