cognizant

COGNIZANT · AZURE AI PLATFORM SERVICES

Managed AI Platform Operations

Run your Azure AI platform with clear ownership and monthly evidence

Built on Microsoft Azure

The challenges we hear most often

Unowned alerts

AI workloads reach production without clear operators.

Handoffs fail

Platform, agent quality and security issues bounce between teams.

Untested stops

No rehearsed way to stop a misbehaving agent.

Our approach

A recurring service that runs platform health, incidents, changes, agent reviews, containment drills and monthly cost reviews, through your service desk.

1 Onboard
Readiness gates and runbooks

→

2 Monitor
Signals to your service desk

→

3 Resolve
Right team for each issue

→

4 Drill
Containment drills once the stop path is proven

→

5 Review
Monthly service and cost report

What you get

- One service entry point and named resolvers
- Response targets within agreed hours
- Containment drills once the stop path is proven
- Monthly service, capacity and cost reports
- A planned exit on day one

How we engage

Option	What it covers	Typical duration
Onboarding	Readiness and runbooks	4 to 8 weeks
Foundation or Extended	Business or extended hours	Monthly
Continuous	24x7, by agreement	Monthly

Note: Typical durations. Scope and price are agreed after a short assessment.

Built on Microsoft Azure

Uses Azure Monitor, Application Insights, Log Analytics and secure integration with ServiceNow or BMC Helix service desks.

Note: Preview features are used only in pilots. Production uses generally available services.

Suggested next steps

1. Confirm the platform and agents in scope
2. Agree coverage hours and service desk route
3. Plan onboarding
